Dear Governor Cooper,

Please do not allow Duke and Dominion to build the Atlantic Coast pipeline through our state. I strongly believe it is time to stop investing in fossil fuel infrastructure and turn completely towards renewable energy sources like wind and solar. Fracked gas is dangerous to the health of our water and climate. Any financial savings that may seem possible from this venture deny the very real external costs of pursuing it's use. I ask this for the sake of my son and this beautiful planet that we share with so many others.

Very Sincerely,

Reverend Zenki Kathleen Batson
